(54) HYDROCARBON COMPOUND, MATERIAL FOR ORGANIC ELECTROLUMINESCENT ELEMENT AND
ORGANIC ELECTROLUMINESCENT ELEMENT

(57)Abstract

PROBLEM TO BE SOLVED: To provide an organic electroluminescent element excellent in luminous efficiency and having a long emission lifetime.

SOLUTION: This organic electroluminescent element includes between a pair of electrodes, one or more layers including one or more new hydrocarbon compounds in which an anthracene ring and a fluorene ring are directly bonded, the compound is preferably used for the electroluminescent element excellent in luminous efficiency and has a long emission lifetime.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the
examiner's decision of rejection or application converted
registration]
